September 2024

President's Letter

Dear Woodworkers,

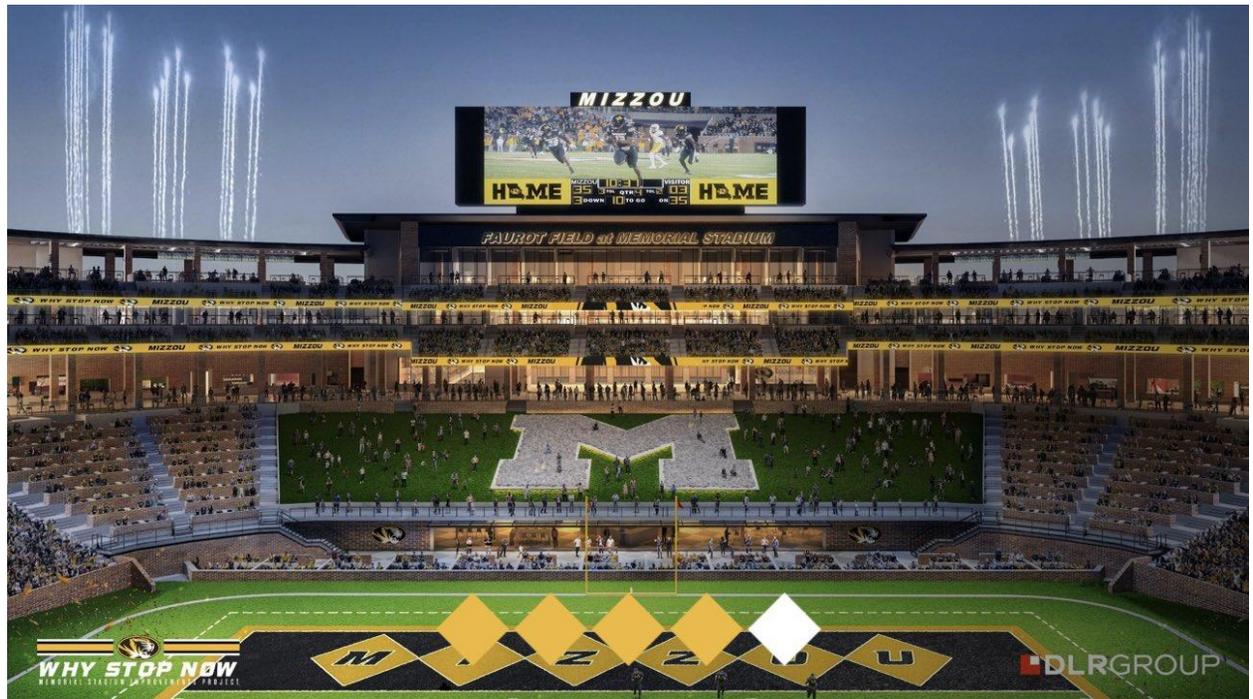

September is here, and you know what that means—football is back! Like many of you, I'm feeling a little torn between getting into the shop and settling in to watch a game (or three). Balancing these hobbies is always a challenge, but hey, there's always halftime, right?

Speaking of shop time, I've been making some progress on a project of my own—building a router table wing for my table saw. It's been a great learning experience, especially when it comes to creating and refining templates. I've made some strides but still have a way to go. If you're like me, there's always something new to learn, and that's part of what keeps this passion alive.

On that note, I'm excited for this month's meeting, where Glen will be giving us a demonstration on building jigs and templates. I'm really looking forward to picking up tips that will improve my own projects, and I hope you all will join us for what's sure to be an informative session.

See you at the meeting, and go Mizzou!

John Loyd
President, Missouri Woodworkers Association
