President's Letter

Hello MWA! I hope everyone is enjoying this beautiful, but rainy, summer we're having. I trust all of you have a great time celebrating the 250th birthday of our great country. I got to take advantage and extend my weekend, and spent 4 fantastic days in my shop. I got to turn, figure out what I did and didn't like about my shop setup, and ordered some new tools to make my job easier.

This month we will have an opportunity to tour Mark Hall's cabinetry shop. A few meetings back Cruz presented on using UV resin, and he mentioned Mark Hall might have some insight on UV finishes. Jack Hall will be guiding the tour at our normal 6:30 meeting time this Monday, July 27, 2026.

Always Remember

Roy Underhill, when asked about stopping the draw knife as you pull it towards your chest on a shaving horse said, "Have I ever told you about my half brother."

Tips, Tools & Jigs

Please submit your favorite tools & jigs for inclusion in this new section of our club websites: midwestwoodworkers.org and midmissouriwoodturners.org. You can send them to erik@erikbetz.com. During our March club meeting at Norm's shop, there was a request to publish details regarding the bandsaw blade tensioning tool that was mentioned. This can now be found under the RESOURCES tab on either website.
